## America's Hospital Ratings

### *Third World Outcomes*

LEXINGTON, KENTUCKY, USA, May 6, 2024/SafeCareGroup.com/-- [The SafeCare Group](https://www.100safecarehospitals.com), the company that connects people with great hospitals has released its Second Quarter 2024 hospital Star Ratings on its [www.100safecarehospitals.com](https://www.100safecarehospitals.com) site.

“American hospital care is quietly drifting towards third world outcomes levels,” stated Yisrael M. Safeek, MD, MBA Chairman and CEO of The SafeCare Group. “Hospital outcomes and cost have deteriorated ever since the recent pandemic.”

Some hospital performance key points according to Dr. Safeek:

- “As compared to improving hospitals performance in Asia and the Middle East, the performance of American hospitals is on a downward trend.
- “For the first time since we started rating hospitals over a decade ago, our methodology revealed abject mediocre performance levels of American hospitals.
- “Indeed, it was a challenge to identify any 5-star or 4-star hospital performance in the 47 key evidence-based metrics we looked at, using our proprietary formula. Especially in the areas of hospital charges, wait times, and readmissions.”

For this quarter, two new measures were incorporated into the Wait Times category of the hospital rankings.

- VTE-1 Venous Thromboembolism Prophylaxis
- VTE-2 Intensive Care Unit Venous Thromboembolism Prophylaxis

**“American hospital care is quietly drifting towards third world outcomes levels,”**

**Yisrael M. Safeek, MD MBA  
CEO & Chairman  
The SafeCare Group**

Two measures were retired from the Wait Times category:

- OP-2 Percentage of outpatients with chest pain or possible heart attack who got drugs to break up blood clots within 30 minutes of arrival
- OP-3b Average number of minutes before outpatients with chest pain or

possible heart attack who needed specialized care were transferred to another hospital

“Incorporating VTE measures is a no-brainer,” Dr. Safeek stated. “These are metrics are abstracted from the electronic medical records.”

### **About The SafeCare Group®**

The SafeCare Group is focused on helping patients by extending our products across their healthcare journey - everything from finding a hospital, writing reviews, and staying connected afterwards. In 2019, The SafeCare Group launched <https://rateahospital.com/> to allow patients to share care experiences, and in 2013, <https://www.100safecarehospitals.com/> rankings were created to empower healthcare consumers. Since 2016, The SafeCare Group invested heavily into Artificial Intelligence (AI) platforms known as Intelligent Healthcare™ PaaS by leveraging machine learning and deep-learning capabilities. SafeCare AI® Suite <https://www.safecareai.com/> fosters a new generation of AI applications, which are able to sense, reason, act and adapt, to address a range of healthcare challenges in areas such as readmissions, medical errors, infections, cost, and outpatient utilization. Since 2014, SafeCareSoft® SaaS solutions enable hospitals to take advantage of disruptive healthcare software known as Softwaring Healthcare Excellence® that optimize hospital ratings and regulatory accreditation. The SafeCare Group® was founded in 2010 and is celebrating its 10th anniversary.
