3rd Quarter 2022 Hospital Ratings

How Did We Rate Your Hospital?

LEXINGTON, KENTUCKY, USA, August 3, 2022/SafeCareGroup.com/-- [The SafeCare Group](#), the company that connects people with great hospitals released its 3rd Quarter 2022 Star Ratings on its www.100safecarehospitals.com site.

“The mediocre performance of US hospitals is intricately tied to:

- *Outdated hospital accreditation methods;*
- *Unpoliced GPO anticompetitive business practices;*
- *Lack of hospital systems executive accountability;*
- *Ineffective CMS pay-for-performance programs;*
- *Overabundance of defensive medicine.*

**Yisrael M. Safeek, MD MBA
Chairman & CEO,
The SafeCare Group**

Healthcare consumers can find information about the quality of care at over 4,500 accredited hospitals, including over 130 Veterans Administration (VA) medical centers and over 50 military hospitals, across the country.

Further, consumers can compare hospitals based on star ratings in hospital timeliness of service, infections, complications of treatments, readmissions within 30 days of discharges, and hospital deaths.

100safecarehospitals.com site works in tandem with www.rateahospital.com site where patients can rate their hospital care experiences.

“For this quarter, overall hospital performance continues to be mediocre,” stated Yisrael M. Safeek, MD, MBA CEO, The SafeCare Group. “We believe the mediocre performance of US hospitals is intricately tied to: outdated hospital accreditation methods; unpoliced GPO anticompetitive business practices; lack of hospital systems executive accountability; ineffective CMS pay-for-performance programs; overabundance of defensive medicine.”

SafeCare

“For example, current CMS accreditation methods do not incorporate objective, evidence-based data. Also, the CMS penalty for excess hospital readmissions is a joke among hospital leadership, as it is but a tiny fraction of the profits they gain from readmissions.”

**“The fault, dear Brutus, is not in our stars,
But in ourselves, that we are underlings.”**

Shakespeare, Julius Caesar

SafeCareSoft®
Softwaring Healthcare Excellence

Recently, SafeCare magazine <https://www.safecaremagazine.com/safecare-gpos.html> published “25 Hospital Horror Stories” - patient reviews of 25 different acute care, accredited hospitals, some with heavily-touted high letter grades, and all delivering shabby care, horrible treatments, and poor services to vulnerable healthcare consumers. These reviews came from our patient site <https://rateahospital.com/>

“Since that publication, hundreds more patient reviews including patient abandonment, long waits, excessive readmissions, and medical errors have been uploaded to the site. About 80 percent of the reviews on the site are not published – many name names and call out hospital leadership.”

About The SafeCare Group®

The SafeCare Group is focused on helping patients by extending our products across their healthcare journey - everything from finding a hospital, writing reviews, and staying connected afterwards. In 2019, The SafeCare Group launched <https://rateahospital.com/> to allow patients to share care experiences, and in 2013, <https://www.100safecarehospitals.com/> rankings were created to empower healthcare consumers. Since 2016, The SafeCare Group invested heavily into Artificial Intelligence (AI) platforms known as Intelligent Healthcare™ PaaS by leveraging machine learning and deep-learning capabilities. SafeCare AI® Suite <https://www.safecareai.com/> fosters a new generation of AI applications, which are able to sense, reason, act and adapt, to address a range of healthcare challenges in areas such readmissions, medical errors, infections, cost, and outpatient utilization. Since 2014, SafeCareSoft® SaaS solutions enable hospitals to take advantage of disruptive healthcare software known as Softwaring Healthcare Excellence® that optimize hospital ratings and regulatory accreditation. The SafeCare Group® was founded in 2010 and is celebrating its 10th anniversary.
