Our Number One US Hospital

End of Year Ratings of about 5,000 Civilian and VA hospitals

LEXINGTON, KENTUCKY, USA, November 4, 2021 /SafeCareMagazine.com/-- The [SafeCare Group](#), the company that connects people with great hospitals has released its fourth quarter performance ratings of about 5,000 hospitals, including Veteran Affairs hospitals performance. Hospitals are compared based upon the evidence-based metrics of timeliness, complications, readmission, infections, and deaths.

“Big-name hospitals that enjoyed high ratings from unscientific and subjective criteria like reputation, and incomplete and conjecture like complications alone did not cut the mustard with evidence-based metrics of timeliness, complications, readmissions, infections, and deaths,”
