

SafeCare

Antisemitic Monster

War Crimes & Crime of the Century

LEXINGTON, KENTUCKY, USA, June 27, 2024/SafeCareGroup.com/-- Amidst Israel's murderous military campaign and barbaric treatment of refugees in Palestine, SafeCare magazine dedicated this June edition to the architect of the Gaza Genocide, the man whose family surname used to be Mileikowsky.

“Who is semitic?

The short answer is someone of Arabic, Aramaic, or Hebrew genetic descent of Southwestern Asia.

Almost every leader and Prime Minister of occupied Palestinian lands have changed their names to make them appear Semitic.

The current Israel Prime Minister is no different – his actual surname is Mileikowsky and he has murdered 50,000 semitic Palestinians since 2023,”

Yisrael M. Safeek, MD, MBA
Chairman, The SafeCare Group

The main article for this edition centers around European colonialization of the Palestine. According to Dr. Safeek, “Israel is a cohort of Westerners posing as ancient Israelites, perpetuating the injustices of colonialism, this time against the Biblical Semitic peoples. The so-called Jewish state is no more than a European invention, worshipped and propped up by gullible and ignorant American evangelicals and politicians alike. Benjamin Mileikowsky is an Antisemitic Monster. He has committed genocide against 50,000 biblical Semitic Palestinians.”

The article included how the US Congress enabled the genocide against the people of Gaza thru blank checks, 2,000-pound bombs, and even a ticket to Congress for Benjamin Mileikowsky to spew his hate and justify his War Crimes.

Other stories covered include “Kidnap My baby?” – a mother’s grief after a hospital threatened to arrest her for trying to keep her baby safe; “Hydraulic Press Billing” – how hospitals squeeze money out of the consumer and insurance companies; and “Ghetto Hospital” – how an American hospital offered third world care and services.
