# Improbable Dream
## *Medicare For All*

LEXINGTON, KENTUCKY, USA, January 9, 2024/SafeCareGroup.com/-- SafeCare magazine announced today the release of its January edition *Improbable Dream*.

It was in 1963 that Civil Rights leader Martin Luther King gave his "I have a Dream" speech - over 40 years ago. While there has been significant improvements in the lives of most Americans, the one area that may be an improbable dream is the vision of universal healthcare coverage. This edition of SafeCare magazine probes into how Medicare For All may be a beacon of hope and a possible solution to the complexities and inequities of the current healthcare system.

*"Whether an improbable dream or a tangible future, the discourse around Medicare For All continues to shape the conversation on healthcare reform, challenging us to strive for a more just and compassionate approach to healthcare,"*

**Yisrael M. Safeek, MD, MBA, FACPE**
**Chairman & CEO**

Yisrael M. Safeek, MD, MBA Chairman and CEO of The SafeCare Group stated: "At its core, Medicare For All presents an enticing vision: universal healthcare coverage for every individual, irrespective of their socioeconomic background, income, or health status."

ABOUT 200 NIGHTMARISH HOSPITAL REVIEWS
FROM DECEMBER 2023

IMPROBABLE DREAM

WHETHER AN IMPROBABLE DREAM OR A TANGIBLE FUTURE, THE DISCOURSE AROUND MEDICARE FOR ALL CONTINUES TO SHAPE THE CONVERSATION ON HEALTHCARE REFORM.

Dr. Safeek explained, "This ambitious proposal promises an end to the struggles of the uninsured and underinsured, a system where healthcare becomes a right rather than a privilege. The allure of such a comprehensive, inclusive system is undeniable, painting a picture of a society where access to medical care is not determined by financial means."

In addition to about 200 patient reviews from December, 2023, this edition also features a review article by Dana Morgan. Dana is the grieving daughter whose mother was admitted to a California hospital on Mother's Day in 2021 and died on May 20, 2021. In her review titled *A Layered Nightmare of Negligence!*, Dana decribes some of the challenges she and her family faced after the unexpected death of her mother.

SafeCare magazine hopes that by highlighting Dana's care experiences that our readers can be educated enough to be vigilant and speak up if in doubt about the care they are receiving.

You can pick up you digital copy of this edition at www.safecaremagazine.com

**About The SafeCare Group®**
Since 2016, The SafeCare Group invested heavily into Artificial Intelligence (AI) platforms known as Intelligent Healthcare™ PaaS by leveraging machine learning and deep-learning capabilities. SafeCare AI® Suite https://www.safecareai.com/ fosters a new generation of AI applications, which are able to sense, reason, act and adapt, to address a range of healthcare challenges in areas such readmissions, medical errors, infections, cost, and outpatient utilization. Since 2014, SafeCareSoft® SaaS solutions enable hospitals to take advantage of disruptive healthcare software known as Softwaring Healthcare Excellence® that optimize hospital ratings and regulatory accreditation. The SafeCare Group® was founded in 2010 and is focused on utilizing AI machine learning, deep learning and artificial neural networks (including Long Short-Term Memory) to predict healthcare outcomes. The SafeCare Group is focused on helping patients by extending our products across their healthcare journey - everything from finding a hospital, writing reviews, and staying connected afterwards. In 2019, The SafeCare Group launched https://rateahospital.com/ to allow patients to share care experiences, and in 2013, https://www.100safecarehospitals.com/ rankings were created to empower healthcare consumers.
