180 Revolting Hospital Reviews

From May 2023

LEXINGTON, KENTUCKY, USA, June 12, 2023/SafeCareGroup.com/-- SafeCare magazine announced today the release of *180 Revolting Hospital Reviews from May 2023*.

“The first five reviews say it all:

1. Had my brother in the ICU with all his private parts showing for 5 or more hours

2. And you say this is an accredited hospital?

3. Atlanta \$hithole

4. My grandmother said one of the staff members hit her

5. Pray to the good lord you don't end up here,”

Yisrael M. Safeek, MD, MBA
Chairman & CEO,
The SafeCare Group

There is no shortage of hospital awards and recognitions in the USA healthcare industrial complex as hospital executives are constantly on the lookout for any and every competitive edge in a dog-eat-dog market environment.

As a result, some paid hospital rating services have taken advantage of the situation and tailored their pitch to these languishing executives.

“Each year, hospitals shell out thousands of dollars (sometimes hundreds of thousands) for ratings, stated Yisrael M. Safeek, MD, MBA, The SafeCare Group CEO, “that in some cases are inflated and in other instances, outright deceitful. Two personal cases come to mind in my previous roles as a hospital executive.”

Dr. Safeek continued, “First, as Executive Vice President of Metro Health, I received a call from one of ratings company sales representative stating that the hospital was “number one in the state for neurosurgery.” The individual stated it would be a great marketing tool for the hospital and wanted to send paperwork for me to look over. I declined. What this con man did not know was that the hospital had just reported its most (volume) prolific neurosurgeon to the State of Michigan Board of Medicine for a pattern of poor outcomes, several involving mortalities of patients some in their twenties. In fact, as a board member pointed out, there were 12 potential lawsuits in the waiting and stating the hospital was number one was going to make some of these lawsuits a reality.”

SafeCare

“The second case was while I was Chief Quality Officer for Pikeville Medical Center, a Kentucky hospital. I discovered that the hospital’s internal quality data simply did not support the high ratings that the hospital ratings company was touting. In consultation with Pam May, JD the Chief Legal Officer of the hospital, I stopped annual subscription in excess of \$500,000 to the company. The company went above my head to the Chief Operating Officer and it took a full presentation at a hospital board meeting to convince the board to stop buying the fake ratings.”

“Hospital care remains a nightmare for millions of Americans. The first five reviews say it all: 1. Had my brother in the ICU with all his private parts showing for 5 or more hours; 2. And you say this is an accredited hospital?; 3. Atlanta \$hithole; 4. My grandmother said one of the staff members hit her; 5. Pray to the good lord you don’t end up here.”
