## SafeCare AI® - Predicting Healthcare Outcomes

### FOR IMMEDIATE RELEASE

The SafeCare Group® Celebrates 10 Years of Innovation in Artificial Intelligence.

SafeCare AI®, a leader in artificial intelligence solutions, today proudly marks its 10th anniversary, celebrating a decade of breakthrough innovation, and responsible AI development.

Founded in 2016, SafeCare AI® began with a simple mission: to make advanced AI accessible, practical, and transformative for organizations of all sizes. Over the past ten years, the company has grown from a small team of visionaries into a global organization.

“Reaching this milestone is both humbling and energizing,” said Yisrael M. Safeek, MD, MBA, Chief Executive Officer of The SafeCare Group. “Over the last decade, we’ve not only witnessed the evolution of AI - we’ve helped shape it. Our focus has always been on building technology that delivers real-world value while maintaining a strong commitment to healthcare quality, patient safety, and value.”

### A Decade of Milestones

SafeCare AI® utilizes EMR data to predict patient outcomes and provide clinical decision support by emulation of intelligence using machine learning, deep learning and artificial neural networks.

These AI-powered, real-time clinical decision support that analyzes EMR (Electronic Medical Record) data to predict and improve patient outcomes - such as preventing sepsis, reducing unnecessary readmissions, minimizing inpatient mortality, and enhancing medication safety, while lowering hospital charges. We call these "Intelligent Healthcare™".

Platform	Description
<b>AI for Sepsis</b>	Predict sepsis progression, precluding aggressive care later
<b>AI for Readmissions</b>	Cut avoidable readmissions, better coordination of care
<b>AI for Redundant Care</b>	Reduce duplication of testing, unnecessary testing
<b>AI for Inpatient Deaths</b>	Reduce inpatient deaths by identifying risks, reactions, and events
<b>AI for Hosp Infections</b>	Prevent hospital acquired infections by identifying risks
<b>AI for Med Safety</b>	Improve medication safety by identifying at risks
<b>AI for Cost</b>	Reduce hospital charges by addressing waste

## Looking Ahead

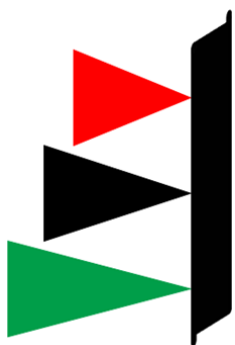

As AI continues to transform industries, SafeCare AI® is focused on the future - investing in next-generation technologies, expanding partnerships, and advancing responsible AI standards.

“To our customers, partners, and employees - thank you for being part of this journey,” added Dr. Safeek. “The next decade will be even more exciting as we continue pushing the boundaries of what AI can achieve.”

To commemorate the anniversary, The SafeCare Group has featured its “AI Series” in SafeCare® magazine, with a forthcoming issue highlighting its journey and vision for the future.

## About

The SafeCare Group® is an AI-driven technology company dedicated to helping healthcare organizations unlock the power of EMR data through intelligent solutions. Its platform enables hospitals to automate processes, gain insights, and drive innovation at scale. Started in 2010, The SafeCare Group is focused on improving healthcare through technology – everything from health systems deploying AI platforms to improving care outcomes, to implementing SaaS provider quality scorecards, to helping patients choose a hospital, and leaving online reviews covering their experiences. In 2019, The SafeCare Group launched <https://rateahospital.com/> to allow patients to share care experiences, and in 2013, <https://www.100safecarehospitals.com/> rankings were created to empower healthcare consumers. Since 2016, The SafeCare Group invested heavily into Artificial Intelligence (AI) platforms known as Intelligent Healthcare™ PaaS by leveraging machine learning and deep-learning capabilities. SafeCare AI® Suite <https://www.safecaregroup.com/intelligent-healthcare.html> fosters a new generation of AI applications, which are able to sense, reason, act and adapt, to address a range of healthcare challenges in areas such readmissions, medical errors, infections, cost, and outpatient utilization. Since 2014, SafeCareSoft® SaaS solutions enable hospitals to take advantage of disruptive healthcare software known as Softwaring Healthcare Excellence® that optimize hospital ratings and regulatory accreditation.
