Palestinians Are Israelites

Palestinians Are Jews Who Survived The Roman Conquest

LEXINGTON, KENTUCKY, USA, May 22, 2025/SafeCareGroup.com/-- It is now more than 77 years since the mass displacement and dispossession of nearly 700,000 Palestinians from their homes in the Holy Land. It is also more than 77 years after the UN General Assembly passed Resolution 194, which called for the repatriation of Palestinian refugees.

Instead of complying with the UN resolution, Western Powers and their Zionist-created state instituted Plan Dalet in March 1948 - A military strategy to expel more Palestinian inhabitants and destroy villages.

Presently, the Plan Dalet has progressed to its “final solution” with a genocide in Gaza and mass starvation of men, women, and children.

“Genetic studies have advanced and scientists were able to extract genetic data from ancient Israelite bodies.

As a result, we now know what the populations of ancient Israel looked like.

After DNA testing, we now know Palestinians are the real descendants of the Jews,”
