## AI for Readmissions

LEXINGTON, KENTUCKY, USA, November 3, 2025/SafeCareGroup.com/-- Hospital readmissions remain one of the most pressing challenges in modern healthcare. Each year, about 23 million patients are readmitted within 30 days of discharge - often due to complications, miscommunication, or inadequate post-discharge care.

This edition of SafeCare magazine *AI for Readmissions* examines the role of artificial intelligence as a powerful solution to the readmissions problem by enabling hospitals to predict, prevent, and proactively manage risks that lead to avoidable readmissions.

By analyzing vast amounts of patient data - such as medical history, lab results, medications, and even social determinants of health - AI models can identify which patients are most likely to be readmitted.

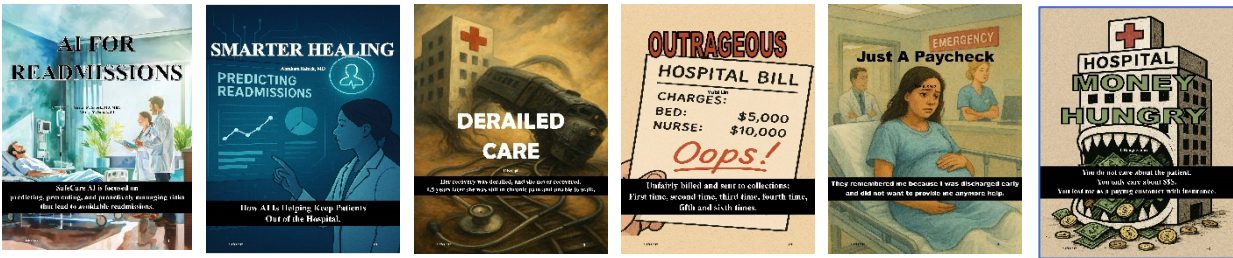

For instance, SafeCare AI machine learning algorithms can detect subtle patterns that humans might overlook, such as recurring lab anomalies or medication nonadherence trends. This allows clinicians to focus attention and resources on high-risk patients before complications arise.

*“Artificial Intelligence has emerged as a powerful solution to the readmissions problem by enabling hospitals to predict, prevent, and proactively manage risks that lead to avoidable readmissions.”*

In addition to the cover story *AI for Readmissions* by Yisrael M. Safeek, MD, MBA, The SafeCare Group Chairman and CEO, and Yisrael M. Safeek, JD, Vice Chairman, this edition also includes a rich assortment of articles. There is *Smarter Healing* by Abraham Safeek, MD and several stories of patients sharing their healthcare experiences in their own words:

- *Smarter Healing* - How AI Is Helping Keep Patients Out of the Hospital;
- *Derailed Care* - Her recovery was derailed, and she never recovered;
- *Outrageous* - Unfairly billed and sent to collections: First time, second time, third time, fourth time, fifth and sixth times;
- *Money Hungry* - You do not care about the patient. You only care about \$\$\$;
- *Just A Paycheck* - They remembered me because I was discharged early and did not want to provide me anymore help.
- *Hospital Reviews*.

### About The SafeCare Group®

The SafeCare Group is focused on helping patients by extending our products across their healthcare journey - everything from finding a hospital, writing reviews, and staying connected afterwards. In 2019, The SafeCare Group launched <https://rateahospital.com/> to allow patients to share care experiences, and in 2013, <https://www.100safecarehospitals.com/> rankings were created to empower healthcare consumers. Since 2016, The SafeCare Group invested heavily into Artificial Intelligence (AI) platforms known as Intelligent Healthcare™ PaaS by leveraging machine learning and deep-learning capabilities. SafeCare AI® Suite <https://www.safecaregroup.com/intelligent-healthcare.html> fosters a new generation of AI applications, which are able to sense, reason, act and adapt, to address a range of healthcare challenges in areas such readmissions, medical errors, infections, cost, and outpatient utilization. Since 2014, SafeCareSoft® SaaS solutions enable hospitals to take advantage of disruptive healthcare software known as Softwaring Healthcare Excellence® that optimize hospital ratings and regulatory accreditation. The SafeCare Group® was founded in 2010 and is celebrating its 15th anniversary.
